BURIALS 3 OPEN 0 LOST 0 RES 0 4SALE 3 LOT TOTA 6

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

2ND BURIAL GRAVE 5

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	3	OPEN	0	LOST	1	RES	0	4SALE	2	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

CEMENT WALL AROUND LOT - NEEDS WORK

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

OVERSIZE LOT AT 26 FEET.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 5 OPEN 1 LOST 0 RES 0 4SALE 0 LOT TOTA 6

FOUR 6"X6" CORNER MARKERS ON LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

2ND BURIAL ON GRAVE 5 AS FOLLOWS:

DUQUETTE-FREDERICK 01/06/1950 ---,NO STONE OR VAULT

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

THIS IS A SMALL LOT WITH ONLY 4 GRAVES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

CEMENT BORDER AROUND NORTH HALF OF LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 5 OPEN 1 LOST 0 RES 0 4SALE 0 LOT TOTA 6

CEMENT BORDER AROUND NORTH HALF.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

NO SURFACE INDICATORS ON ENTIRE LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 6

THIS IS A SINGLE GRAVE AREA; THIS IS THE EAST TIER.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 6

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	4	OPEN	2	LOST	0	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

2ND BURIAL GRAVE 2 :MILLER-JAMES JOSEPH; 04/27/1929;0;12X24 FLUSH NB

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

LOT TOTA	7								

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

4"X4" STONE MARKERS AT THE CORNERS OF THE LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

CEMENT BORDER AROUND NORTH HALF OF LOT - NO WORK.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	3	OPEN	3	LOST	0	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 6

THIS IS A SINGLE GRAVE AREA. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6	OPEN 0	LOST 0	RES 0	4SALE 0	LOT TOTA 6
-----------	--------	--------	-------	---------	------------

THIS IS A SINGLE GRAVE AREA. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	3	OPEN	0	LOST	0	RES	0	4SALE	0	LOT TOTA	3
---------	---	------	---	------	---	-----	---	-------	---	----------	---

THIS IS A SINGLE GRAVE AREA. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 6

THIS IS A SINGLE GRAVE AREA. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 6

THIS IS A SINGLE GRAVE AREA. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 6

THIS IS A SINGLE GRAVE AREA. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6	OPEN 0	LOST 0	RES 0	4SALE 0	LOT TOTA 6
-----------	--------	--------	-------	---------	------------

THIS IS A SINGLE GRAVE AREA. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	4	OPEN	2	LOST	0	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	6	OPEN	0	LOST	0	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 8 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 8

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 2	OPEN 4	LOST 0	RES 0	4SALE 0	LOT TOTA 6
-----------	--------	--------	-------	---------	------------

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	2	OPEN	3	LOST	1	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	4	OPEN	2	LOST	0	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

4"X4" STONE MARKERS IN THE CORNERS OF THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 3 OPEN 2 LOST 0 RES 0 4SALE 0 LOT TOTA 5

THIS IS A SMALL 16' LOT WITH ONLY 5 GRAVES.

6"X6" STONE MARKERS IN THE 4 CORNERS OF THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 4 OPEN 2 LOST 0 RES 0 4SALE 0 LOT TOTA 6

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	5	OPEN	1	LOST	0	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 6

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 6 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 6

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	3	OPEN	0	LOST	0	RES	0	4SALE	0	LOT TOTA	3
---------	---	------	---	------	---	-----	---	-------	---	----------	---

THIS IS A SINGLE GRAVE AREA WITH LONG LOTS. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	6	OPEN	0	LOST	0	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

THIS IS A SINGLE GRAVE AREA WITH LONG LOTS. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 3 OPEN 3 LOST 0 RES 0 4SALE 0 LOT TOTA 6

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 5 OPEN 1 LOST 0 RES 0 4SALE 0 LOT TOTA 6

CEMENT BORDER ON WEST & NORTH SIDES OF N/2

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

7"X7" STONE MARKERS IN CORNERS OF N/2 OF LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 8 OPEN 0 LOST 0 RES 0 4SALE 0 LOT TOTA 8

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

---------	---	------	---	------	---	-----	---	-------	---	----------	---

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	6	OPEN	0	LOST	0	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

THIS IS A SINGLE GRAVE AREA WITH LONG LOTS. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS	6	OPEN	0	LOST	0	RES	0	4SALE	0	LOT TOTA	6
---------	---	------	---	------	---	-----	---	-------	---	----------	---

THIS IS A SINGLE GRAVE AREA WITH LONG LOTS. BURIALS ARE
MOSTLY IN DATE SEQUENCE NEXT TO ONE ANOTHER. CLOSE SPACING IS USED.
MOST BURIALS HAVE NO SURFACE INDICATION OF BURIAL. FEW HAVE STONES.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 5 OPEN 1 LOST 0 RES 0 4SALE 0 LOT TOTA 6

4 CEMENT MARKERS LOCATED IN THE CORNERS OF THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 2 OPEN 4 LOST 0 RES 0 4SALE 0 LOT TOTA 6

4 CEMENT MARKERS ON THE CORNERS OF THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

BURIALS 4 OPEN 2 LOST 0 RES 0 4SALE 0 LOT TOTA 6

4 CEMENT MARKERS IN THE CORNERS OF THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

2 CORNER MARKERS ON THE LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

2 CORNER MARKERS ON THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

2 CORNER MARKERS ON THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

2 CORNER MARKERS ON THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.

2 CORNER MARKERS ON THIS LOT.

Most of the old lots in Lakeview Cemetery are configured to accommodate up to 6 graves in either a 20 or 24 foot length. This computer map is designed to list graves accordingly and yet the number of burials varies from lot to lot. In some cases more than 6 burials had to be shown.

Lot ownership is frequently split into half lots with the halves supporting either 2 or 3 graves. The arrangement on the page permits recognition of this.

The lots that have been laid out in recent years contain 5 graves in a 20 foot lot.
